

TP222 / TP226 Table Top Tree Packager Instructions for Assembly

GENERAL INFORMATION

The purpose of this manual is to assist the operator in assembling the **TP222 or TP226 Table Top Tree Packager**. Read it carefully as it furnishes information and instructions that will help you achieve years of dependable performance.

The information in this manual was current at time of printing. Due to possible engineering changes your machine may vary slightly in detail.

PACKING LIST

CARTON A TP222 / TP226	1 Molded Plastic Cone	8 Carriage Bolts with Nuts & Washers (may be attached to Plastic Cone)
	1 Steel L-Bracket	4 Hex Head Bolts with Nuts & Washers
	2 Side Brackets (marked “A” & “B”)	1 Instructions for Assembly
	1 Adjustable Retainer Ring	1 Netting Use Instructions

ASSEMBLY INSTRUCTIONS

1. Locate all parts to your Table Top Tree Packager.
2. Place the Steel L-Bracket on a flat surface with the arms pointing up. **(Figure 1)**.
3. Attach the Side Brackets vertically to the outside of the arms using the Hex Head Bolts, nuts and washers. Leave the nuts just finger tight. The Side Brackets have 2 holes at one end that will align with the holes on the L-Bracket arms. The Side Bracket labeled “A” will go on the nearest arm, and “B” on the farthest arm. **(Figures 1 & 2)**.
4. Position the Plastic Cone between the two brackets with the side labeled “A” inside the “A” Side Bracket, and the side labeled “B” inside the “B” Side Bracket. Insert the 8 Carriage Bolts from inside the Cone, to pass through the Side Brackets and fasten the washers and nuts to secure the Cone to the Brackets **(Figure 3)**.

5. ADJUSTABLE RETAINER RING ASSEMBLY: Remove both screws from the end of the large black tube. Insert the small black pipe into the open end of the larger black tube. Fit together until both ends of the larger tube meet. Reinstall both screws until moderately tight.
6. On the Plastic Cone, lift the curled end of one of the stainless steel clips and snap the Retainer Ring into the curled end. Repeat this step with the other 2 clips to secure the Retainer Ring centered around the narrow end of the Plastic Cone (**Figure 4**).
